## **WHAT IS THE GOVERNOR’S INNOVATIVE DOMESTIC VIOLENCE PREVENTION GRANT PROGRAM?**

This grant program is designed to support organizations to provide innovative and creative programming that focuses on the needs of children who have experienced/witnessed domestic violence in their homes. It will also support programs that enable victims to create a safe and violence free life. Programs should propose activities that are prevention and/or intervention focused which aim to decrease the risk factors for domestic violence victims, their families, and communities.

Applicants applying for funding should demonstrate their involvement in a comprehensive planning process completed within the previous three years. The focus of this process should have been to determine community needs regarding safety for families, women and children. Applicants must demonstrate that key stakeholders such as domestic violence services, law enforcement, child protective services, and schools as well as other relevant community entities were involved in the process. The planning process should have resulted in defined needs and resources and potential activities for that community.

Programs may address a statewide, regional or community approach. The Governor’s Division for Women recommends collaborative efforts and partnerships with other entities and programs within their communities. Partnerships and/or collaborative efforts with other entities could provide additional resources such as funding, in-kind, direct services, volunteers, and community support.

Each application will be reviewed at several levels. The applications will initially be reviewed by a peer review committee, whose recommendations will be forwarded to the

Director of the Governor's Division for Women for policy review and approval. Applicants will be notified if their application has been selected for funding by the Governor's Office for Children, Youth and Families.

The purpose of the budget narrative is to provide more clarity and detail on the various budget line items that funds are being requested for. In addition, **please do a separate budget narrative for all match that will be contributed towards this grant.** The budget narrative should explain the criteria used to compute the budget figures on the budget form. Please verify that the narrative and budget form correspond and the calculations and totals are accurate.

**Personnel:** Include information such as position title(s), name of employee (if known), salary, time to be spent on this program (hours or %), number of months assigned to this program, etc. Explain how the salary rate for each position was determined. If salaries are expected to increase during the project year, indicate the percentage increases for each position and justify the percent of the salary increase. Also be sure to include the scheduled salary increases on the Budget Form.

**Fringe Benefits:** Include a benefit percentage and what expenses make up employee benefit costs. Indicate any special rates for part-time employees, if applicable. Explain how the benefits for each position were determined. If using a fringe benefit rate, explain how this percentage is justified or approved by your agency.

Explain how all contracts will be procured.

**Travel:** Include a detailed breakdown of hotel, transportation, meal costs, etc. Indicate the location(s) of travel and the justification for travel, how many employees will attend and how the estimates have been determined. Applicants may follow their own established travel rates. However, the Governor's Office for Children, Youth and Families reserves the right to determine the reasonableness of those rates. If an applicant does not have a written policy they should abide by the State's travel policy ([www.gao.state.az.us/travel/](http://www.gao.state.az.us/travel/)).

**Pass Through/Subgrants:** In the event that this application represents a collaboration and the contract will be utilizing other subgrantees to perform various components of the program, include a list of subgrantees, programmatic work each subgrantee will perform, and how costs for each subgrantee are determined).

**Supplies and Operating Expenses:** Explain each supply item to be purchased, how the costs were determined and justify the need for the items. Items with a unit cost less

than \$5,000 are considered supplies and should be listed in this category. All purchases should be made through competitive bid, state or local award, or established purchasing procedures.

**Administrative/Indirect Costs:** Administrative costs are general or centralized expenses of overall administration of an organization that receives grant funds and does not include particular project costs. For organizations that have an established federally approved indirect cost rate for Federal awards, indirect costs mean those costs that are included in the organization's indirect cost rate. Such costs are generally identified with the organization's overall operation and are further described in Office of Management and Budget Circulars A-21, A-87, and A-122.

**Option A: Administrative Costs:** With proper justification, subgrantees may include an allocation for administrative costs for up to 10% of the grant request.

Administrative costs may include direct charges for: costs of financial, accounting, auditing, contracting or general legal services; costs of internal evaluation, including overall organization's management improvement costs; and costs of general liability insurance that protects the organization(s) responsible for operating a project, other than insurance costs solely attributable to the project. Administrative costs may also include that portion of salaries and benefits of the project's director and other administrative staff not attributable to the time spent in support of a specific project.

**Options B: Federally Approved Indirect Costs:** If your organization has a federally approved indirect cost rate agreement in place, subgrantees may include an allocation for indirect costs for up to 10% of the grant request.

Indirect costs are costs of an organization that are not readily assignable to a particular project, but are necessary to the operation of the organization and the performance of the project. The cost of operating and maintaining facilities, depreciation, and administrative salaries are examples of the types of costs that are usually treated as indirect.
